

Working for all Albertans. The ALIDP is a non-profit society working to discover, share and promote the implementation of sustainable stormwater practices in Alberta. Our cross-disciplinary dialog links government, industry, academia, stewards and educators. We seek to advance knowledge, provide networking opportunities, and advocate for the best in stormwater policy, planning, and practice. Through the support of our partners, this work can continue. Please consider joining us.

BENEFITS

DISCOUNTS AND EXCLUSIVE EVENTS

Partners normally receive a discount off registration fees at events. Occasionally, we offer partner-only events.

DIRECTORY LISTING

FOR MUNICIPAL, CORPORATE AND VENDOR PARTNERS Showcase your organization's skills and involvement in the stormwater world with a logo and link from our website to yours.

PARTICIPATION OPPORTUNITIES

All partners are entitled to vote, participate in working groups and to stand for election to the Board of Directors.

A single purchase confers benefits on all employees.
